APP

USER MANUAL

Drinking Water Tester (6-in-1/9-in-1)

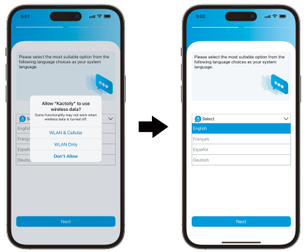

Please read the instruction manual carefully before use

Setup Basics

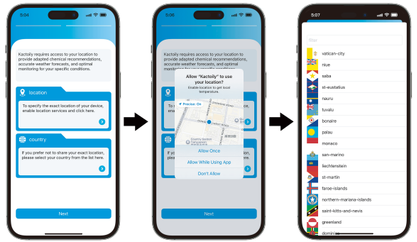

Make sure you've downloaded the app from the Google Play Store or Apple App Store.

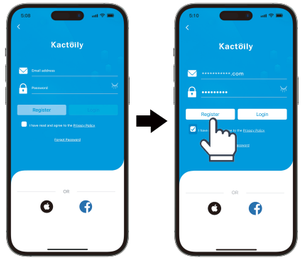

1.Open the Kactoily app to set up your account.

2.Allow Kactoily to access your wireless network and select a language to continue.

3.Allow Kactoily to access your location, and select your country.

4.To log in for the first time, please register by entering a valid email address and creating a secure password.
【Your email address will be used for all future logins.】

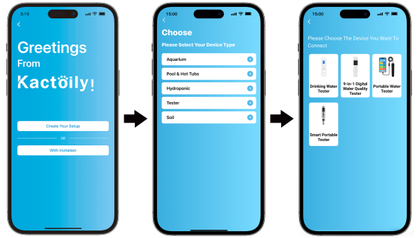

5.Re-enter your password to confirm, then enter the email verification code to finish registering.

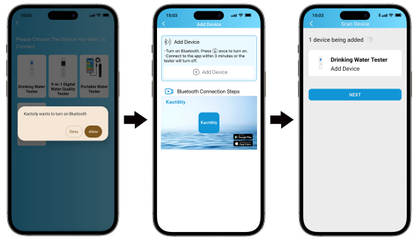

6.Once registered, enter your account and password to log in.

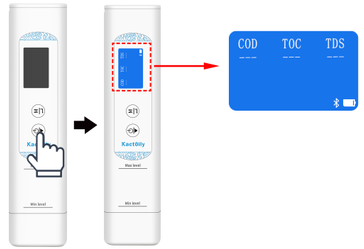

Bluetooth Connection

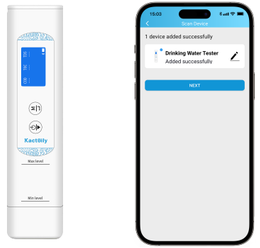

1.Please select Tester, then select Drinking Water Tester.

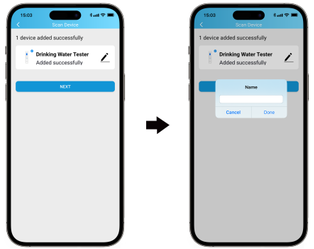

2.*Please watch our Bluetooth connection video before you begin.
Tap the 'Add Device' button and enable Bluetooth.

3. Press the ' ⏻ ' button once to turn on the tester. The Bluetooth icon will appear on the screen, indicating that the device is in pairing mode.

4. The device will successfully connect to the phone via Bluetooth.

5.Connection successful. You can now name your device.

My Device: Edit device name, view device ID information.
Country: Select country.
Language: Select language.
Support: FAQ & Contact Email.
Privacy Policy: View how the app collects, uses, stores, and protects users' personal information.
Sign Out: Log out of your account.

Calibration

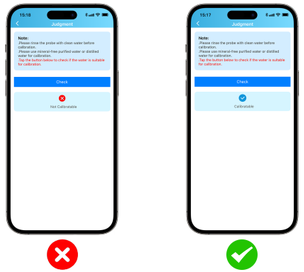

Note: Please use mineral-free purified or distilled water for calibration.

1.Before calibration, go to the Judgement page to confirm your water is suitable for calibration.

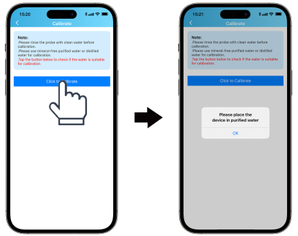

2.Insert the tester into the prepared calibration water, then tap Check to verify.

3.If the result shows “Calibratable,” the water is suitable for calibration. If it shows “Not Calibratable,” replace the water and verify again.

4.After confirming the calibration water is suitable, tap to enter the calibration page.

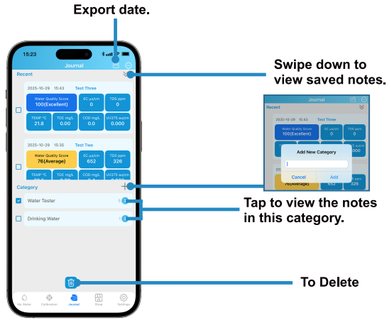

5.Insert the tester into the appropriate calibration water, then click Calibrate.

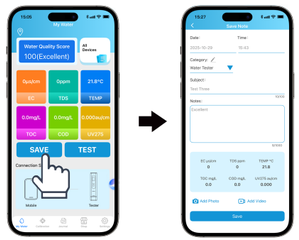

6.Once “Calibration Successful” appears, the calibration is complete.（You can also calibrate directly on the device; calibration only needs to be done once, either via the app or the device.）

Journal

Steps to Manage Notes

1.Tap the Save button, then enter your category, subject, and content, and optionally add a photo or video.

2.Click "Save" to save the note to the journal.

3.To edit a saved record, go to the journal and select it.

4.Tap the button to edit, or tap button to remove.

Steps to Manage Categories

1.Tap the ‘+’ button, enter a new category name and tap Add.

2.To edit a saved category, go to the journal and tap the button.

3.Choose the category to delete.
