Setup Basics

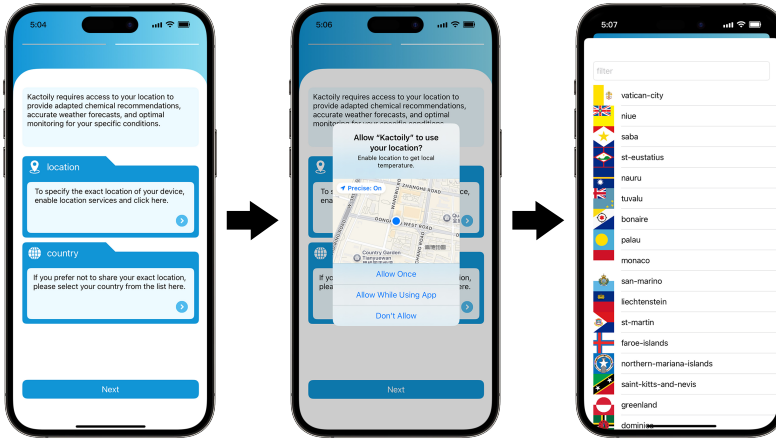

Set Up a Few Basics Before You Start Using Your Kactoily App!
Make sure you've downloaded the app from the Google Play Store or Apple App Store.

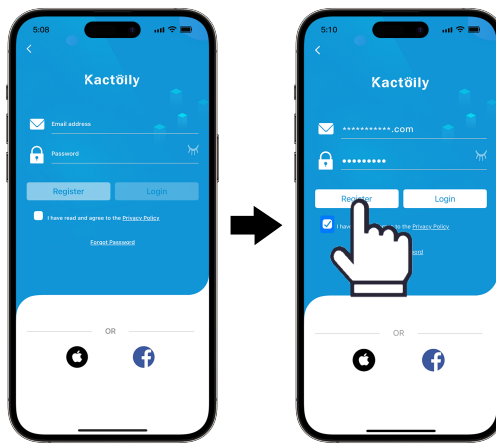

1.Open the Kactoily app to set up your account.

2.Allow Kactoily to access your wireless network and select a language to continue.

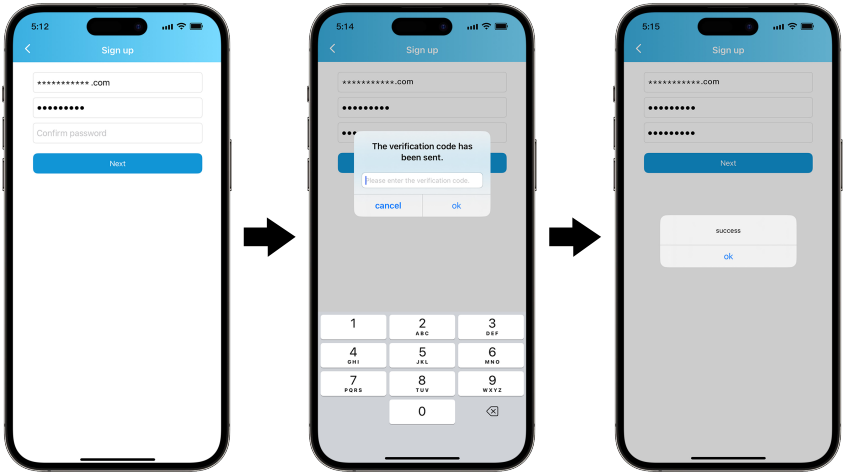

3.Allow Kactoily to access your location, and select your country.

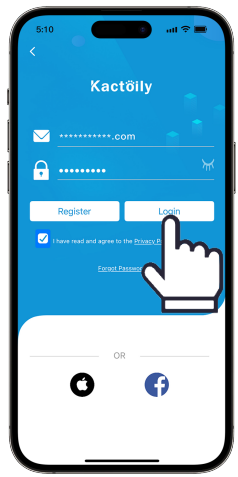

4.To log in for the first time, please register by entering a valid email address and creating a secure password.

【Your email address will be used for all future logins.】

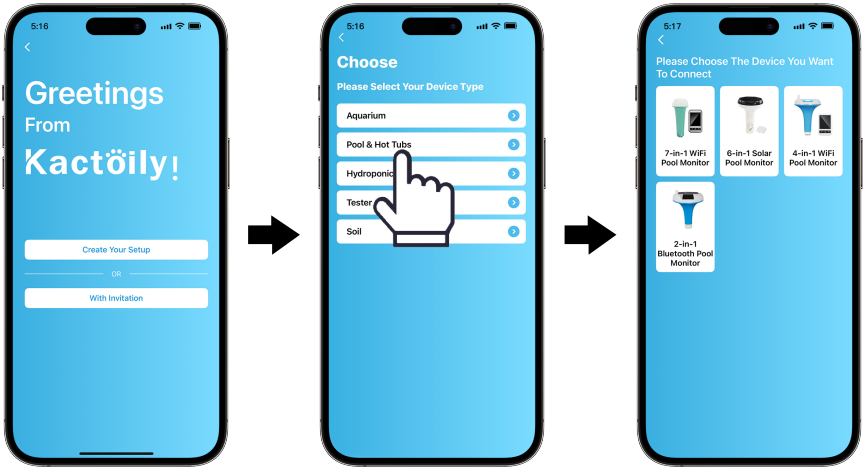

5.Re-enter your password to confirm, then enter the email verification code to finish registering.

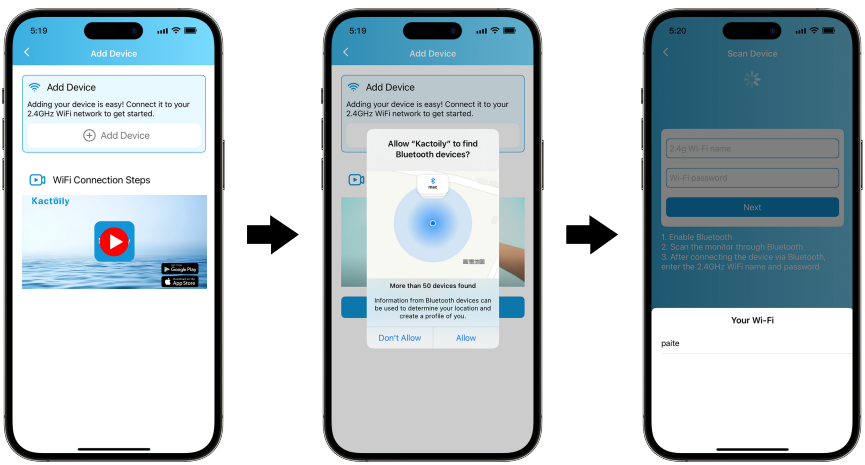

6.Once registered, enter your account and password to log in.

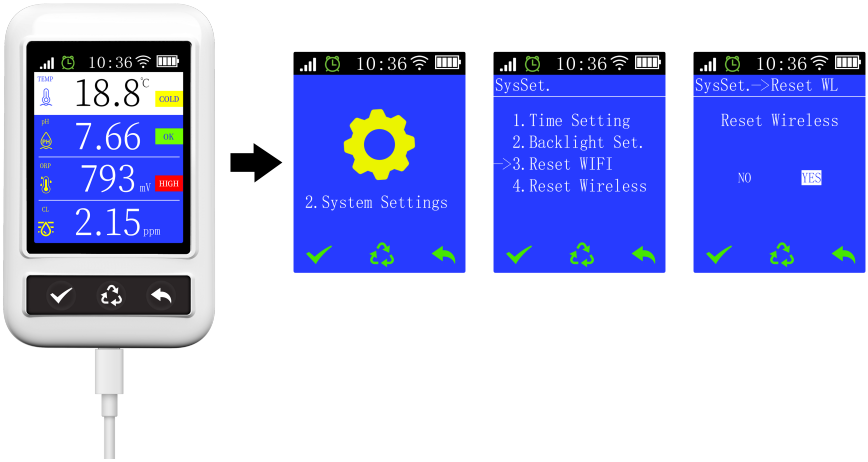

WiFi Connection

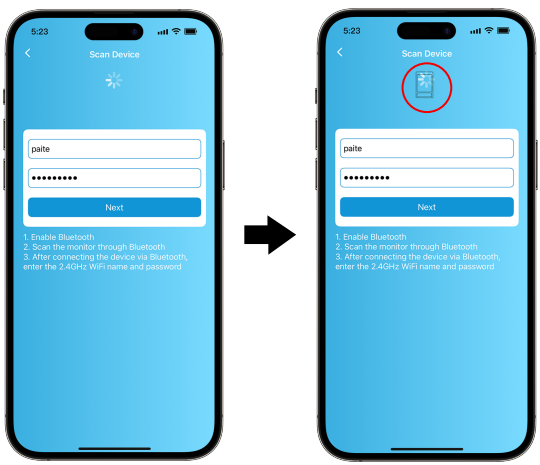

1.Please select Pool&Hot Tubs， then select 4-in-1 WiFi Pool Monitor

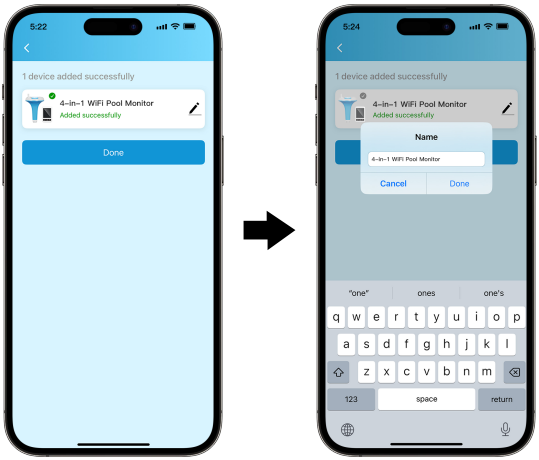

2.*Please watch our Wi-Fi connection video before you begin.
Tap the 'Add Device' button and enable Bluetooth. Then, select the 2.4 GHz Wi-Fi network.

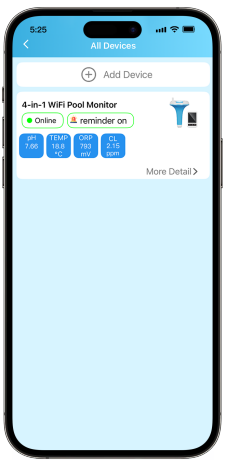

3. Connect the display to power. Then, navigate to Reset Wi-Fi Settings on the display and reset the Wi-Fi settings. For detailed instructions, please refer to page 12of the product manual.

4.Enter the 2.4 GHz Wi-Fi password and tap 'Next'. A display icon will appear below 'Scan Device', indicating the display and probe are connecting.

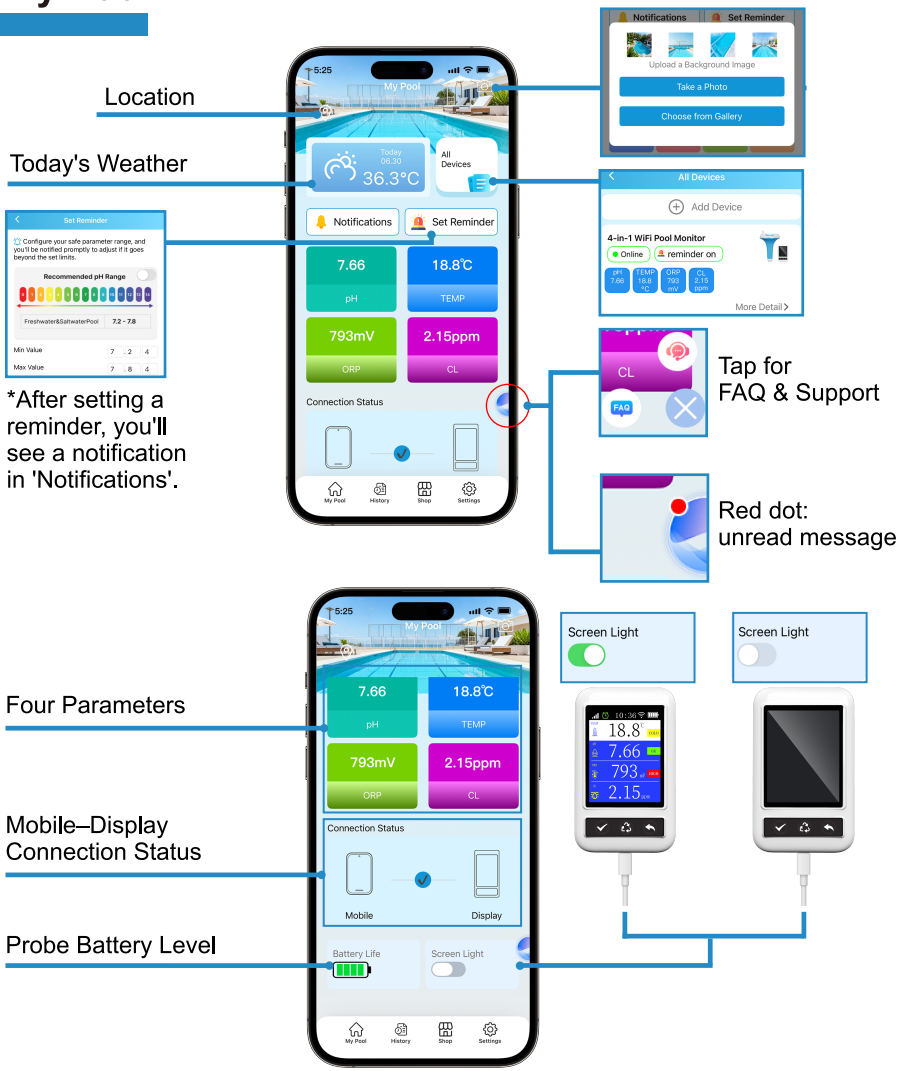

5.Connection successful.You can now name your monitor.

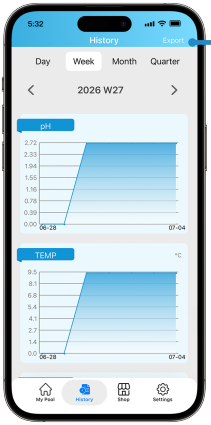

6.Tap “More Details” to go to the main page.

Set Reminder&Notification

Using pH as an example

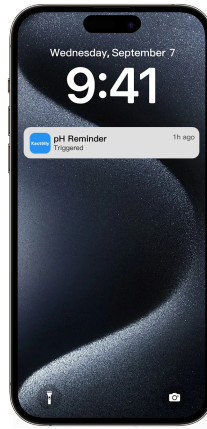

1.Set the minimum and maximum pH limits according to your needs, then turn on the pH reminder.

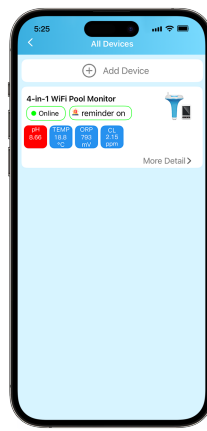

【Please note that entering the 'Set Reminder' screen will be considered as resetting the reminder notification, regardless of whether any changes are made.】

2.After setting a reminder, you will receive a notification if your pool system's pH level is outside the configured range. The notification will also appear in "Notifications."
Note: If the pH level returns to nommal, the notification in "Notifications" will automatically disappear.

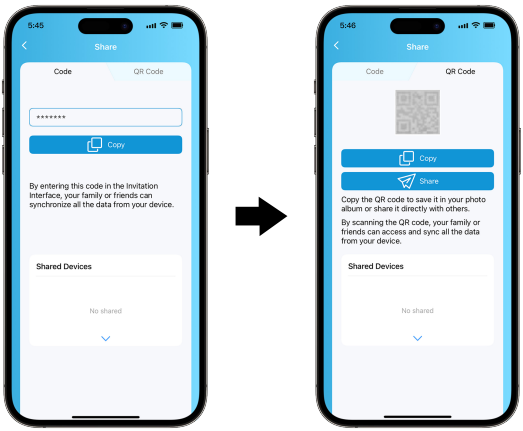

3. Even when you’re not using the app, it will notify you if the pH level is out of range.

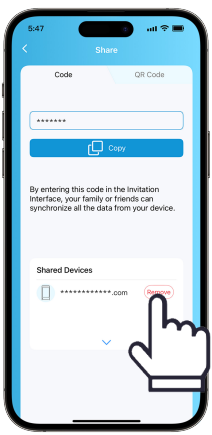

Share&With Invitation

Share

1.You can choose to share your device using a code or a QR code.

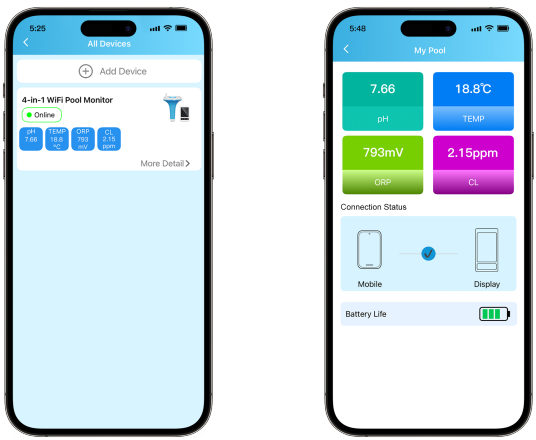

2.After sharing successfully, you have the option to remove the shared account.

With Invitation

1.Through 'With Invitation,' you can scan a shared QR code to access a device shared by others.

2.Devices obtained through sharing can only view readings and cannot modify any settings.
