Setup Basics

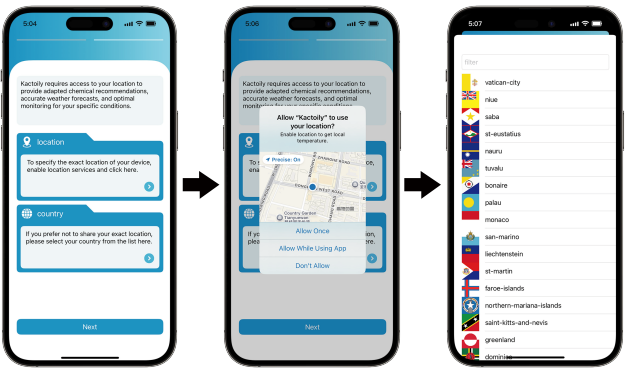

Make sure you've downloaded the app from the Google Play Store or Apple App Store.

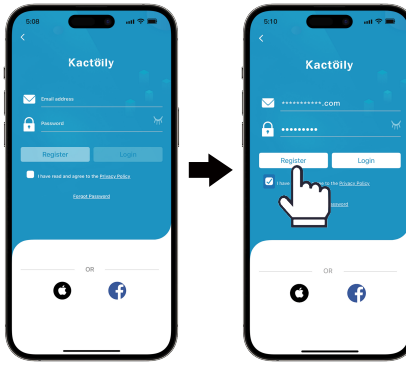

1.Open the Kactoily app to set up your account.

2.Allow Kactoily to access your wireless network and select a language to continue.

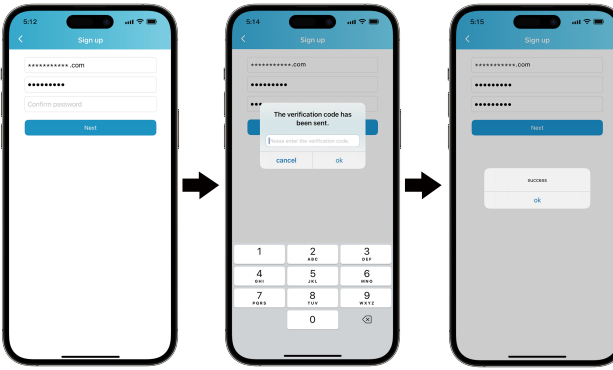

3.Allow Kactoily to access your location, and select your country.

4.To log in for the first time, please register by entering a valid email address and creating a secure password.

【Your email address will be used for all future logins.】

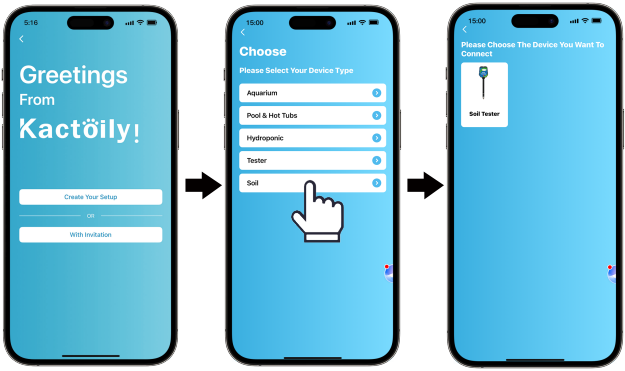

5.Re-enter your password to confirm, then enter the email verification code to finish registering.

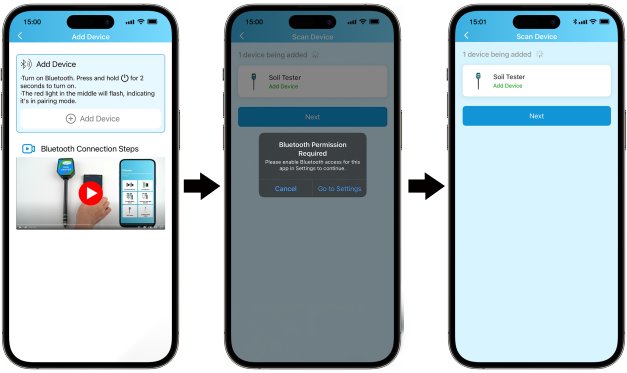

6.Once registered, enter your account and password to log in.

Bluetooth Connection

1.Please select Soil, then select Soil Tester.

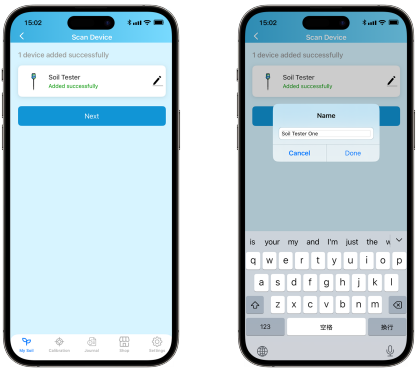

2.*Please watch our Bluetooth connection video before you begin.

Tap the 'Add Device' button and enable Bluetooth.

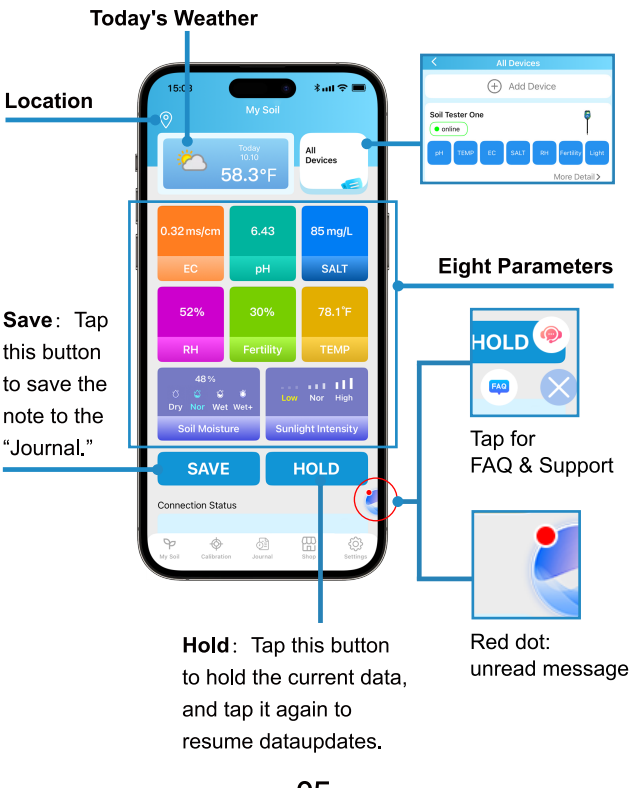

3.Press and hold the power button for 2 seconds, then release it when the red light flashes. The app and device will automatically connect via Bluetooth.

4.Connection successful. You can now name your device.
